

I am so tired of anyone being able to call me whenever they want, which burns up minutes on my cell phone. If I want to talk to any company that I do business with I should be the one to do the calling, at my time and when I want not the other way around. I just got my cell phone on the do not call list and was looking forward to not receiving calls that I do not want. Now you are considering changing the rules, that is not fair. Please consider all of us who have signed up for the no call list, the number is quite large, and we have voiced our opinion already, what more do we need to do to get your attention and let you know that we want to be able to say that we do not want to receive these calls!!
